### Disclaimer:

These information in the HNS Code Translator is based on the General Equivalency Mapping (GEM) files published by CMS, and are not intended to be used as an ICD-10 conversion, ICD-10 mapping, or ICD-9 to ICD-10 crosswalk tool. HNS makes no guarantee as to the accuracy or appropriateness of the ICD-10 coes provided. While many codes in ICD-9-CM map directly to codes in ICD-10, in some cases, a clinical analysis will be required to determine which code or codes should be selected, and there will be many situations in which you will need to map the ICD-9 code to the most appropriate ICD-10 Code.
